P-33313

Contents of Amendment under Article 34

SPECIFICATION

1) Page 3, lines 13-14, change "in an area other than an area where the pads are disposed" to --in an area other than an area where the pads are disposed, within the semiconductor integrated circuit--.

CLAIMS

The following claim is amended as underlined portion.

1. (Amended) A semiconductor integrated circuit including:
pads, and
wirings which are electrically connected to the pads,
wherein said wirings are connected to bumps of a probe card_
in an area other than an area where the pads are disposed, within
the semiconductor integrated circuit.
